TITLE : PROJECTION TELEVISION RECEIVER

ABSTRACT : PURPOSE: To obtain a projection television receiver with less noise by reducing considerably a noise terminal voltage in the projection television receiver installed directly on a floor.

CONSTITUTION: A metallic shield plate 6 is arranged under a power supply circuit section 5 of the projection television receiver installed directly on a floor and a noise terminal voltage is reduced by connecting the metallic shield plate 6 electrically to ground. The electric grounding method is applied to a charging part or a noncharging part.
